

applai

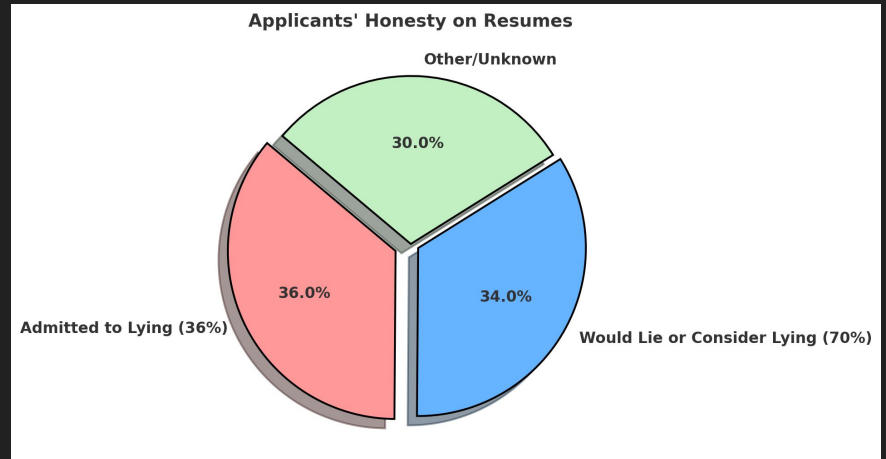

Hiring made easy

The Problem

- Research shows that **36%** of applicants have openly admitted to lying on their resumes
- Another survey shows that **70%** of applicants have lied or would consider lying on their resumes

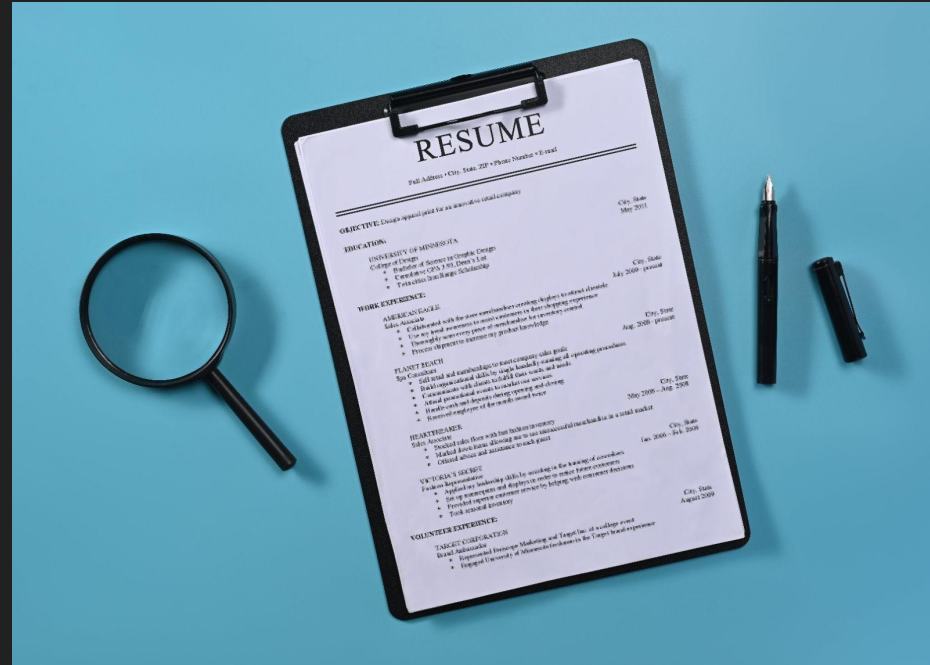

Survey:

<https://resumelab.com/career-advice/lying-to-get-a-job>

Impacts

- By lying on their resumes, applicants:
 - Waste company resources
 - Take away spots from qualified applicants
 - Lower overall company effectiveness
 - Set a Negative Precedent

Current solutions

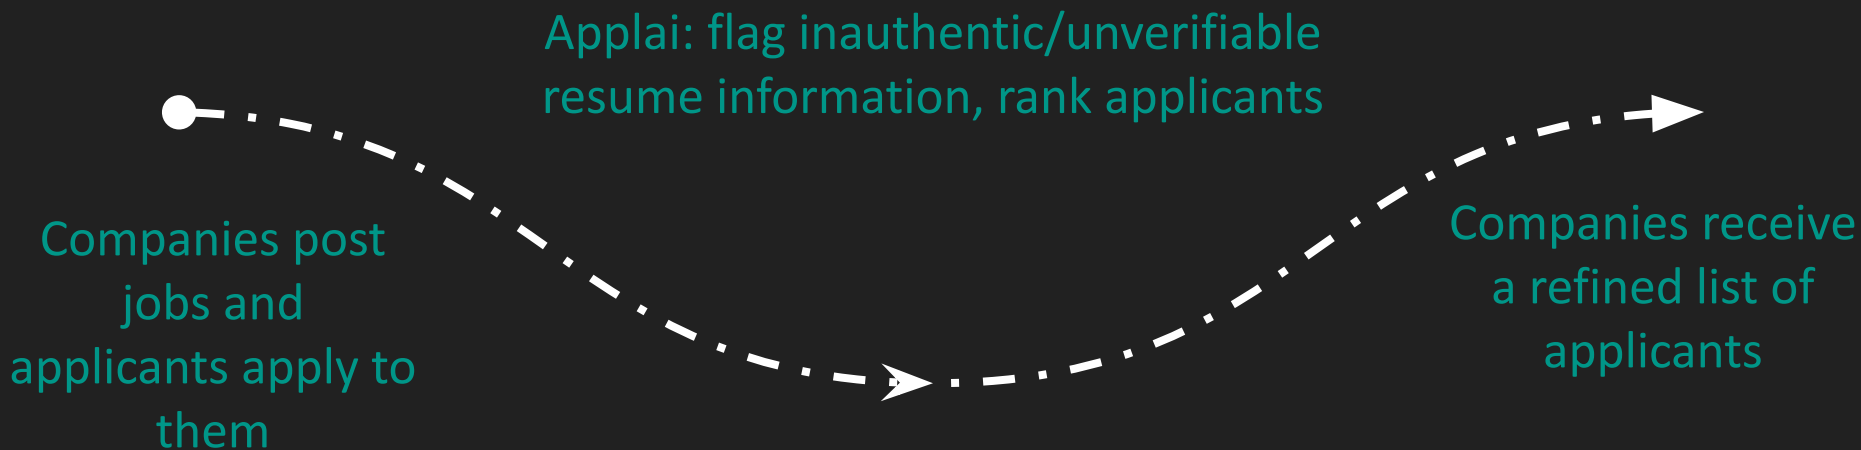

- Background checks
 - Costly and time consuming
- Technical assessments
 - Cheating potential and large time investment
- Reference checks
 - Potential bias and time intensive
- In-house investigations
 - Not viable for smaller companies

applai is the
solution!
